

35 years
of workspace wellbeing & productivity

ERGOTRON®

Ergotron has been improving the human interface with digital displays in the corporate office market for over three decades. Our history of innovation is evidenced in over 85 patents and a growing portfolio of ergonomically designed mounting and mobility products for computer users. Designed with the patented Constant Force™ technology, Ergotron products can be effortlessly adjusted to the desired working position.

Sit-Stand Workstations

Ergotron offers the broadest selection of sit-stand products

With a human-centered design, Ergotron's WorkFit® line of sit-stand solutions promotes proper ergonomic positioning and inspires a healthier way of working. The ability to regularly switch from a sitting to standing position at work improves wellbeing and is tied to higher levels of productivity.

Monitor Mounts

Flexible monitors increase collaboration and productivity

Ergotron mounting solutions provide maximum adjustability for different users in different environments. The physical posture of the user reaches the most comfortable levels when using a monitor mount while simultaneously creating more space on the worksurface. Being able to freely and effortlessly move up or down, tilt or pan using one, two or three monitors improves collaboration with co-workers and boosts productivity.

WorkFit-T has a unique design that introduces the simplest way to convert a tabletop into a healthy sit-stand workstation, with no mounting required. The WorkFit-T moves straight up and down, saving space, always staying within the footprint of your desktop. Available in black and white.

WorkFit-TL is a larger version of the WorkFit-T. It features a wider keyboard tray, bigger worksurface and supports more lift. Available in black and white.

ACCESSORIES

Single Monitor Kit

Dual Monitor Kit

LCD & Laptop Kit

WorkFit-SR, featuring refined aesthetics, clamps to the rear of most surfaces, transforming them into a sit-stand desk. Aluminum worksurface ensures an extremely sturdy platform while Ergotron's Constant Force™ technology

allows easy handle-free height adjustment. Internal cable management hides cord clutter and pre-installed USB cable provides easy connectivity. Available in black and white, short and deep worksurfaces, with support for one or two monitors.

ACCESSORIES

MX Mini, with its exceptional design, is the ideal mount for lightweight displays weighing up to 3,5 kg. Combining premium features, an attractive finish and affordable price, MX Mini offers a slim profile and expansive height adjustment range along with full tilt, pan and rotation. You can create an ultra-flexible tablet mount arm using the Lockable Tablet Mount accessory.

ACCESSORIES

Lockable
Tablet Mount

LX Single, made of durable steel and aluminum construction, is the perfect solution for a total weight capacity of 11,3 kg. Sleek and streamlined, the LX frees up space and allows positioning of your display for greater productivity. Patented Constant Force™ motion technology provides premium ease-of-use display adjustment. The cable management feature routes cables under the arm, providing a tidy worksurface.

ACCESSORIES

Tandem
Tablet Holder

LX Dual Direct: LX Dual Direct with the LX low-profile crossbow allows monitors to move simultaneously with ease reclaiming valuable desktop space. Screens pivot up and down independently, providing a full motion range, optimal monitor alignment and high

levels of collaboration and productivity. With a total weight capacity of 9,9 kg, Dual Direct is suitable for a wide range of monitors. Movement of two screens becomes even easier with the addition of the Dual Direct Handle Kit accessory. Available in aluminum and white.

ACCESSORIES

Dual Direct Handle Kit

HX Arms: The perfect solution to add flexibility and superior ergonomics to your monitors. The HX features a new post design that frees up space and allows positioning of your displays for greater productivity. Sleek and streamlined, it accommodates large

screens weighing up to 19 kg. Available for one, two or three monitors in an elegant white finish. Easy monitor height adjustment for Dual and Triple versions is achieved with a handle already included in the product package.

Triple Bow Kit

ACCESSORIES

HOW MUCH TIME
DO WE SPEND
SITTING PER DAY?

12.3 hours
total

5.8 hours
at work

Hub, a space-saver wall mounted standing desk, offers all the benefits of a private “hub” in today’s modern design of the open office. With a channel to plug in and charge all your devices, it is ideal

for sorting e-mail or telephone correspondence and notes. The ability to secure basic personal items gives the user freedom and flexibility.

Zip12 Wall Charging Mount is a slim storage enclosure, perfect for charging and securing up to 12 tablets, designed to be compatible with a wide variety of manufacturers like Microsoft, Samsung, Apple, Lenovo, HP, Dell, Amazon, Asus, Acer and many others. Features include a space-saving profile and easy device access with Show & Stow™ technology.

Zip12 Desktop

A desktop cabinet with flexible design to securely charge up to 12 mobile computing devices.

Zip40 Cart

The one cart that gets it all done. A truly universal cart for transporting, securing and charging up to 40 of your mobile computing devices.

Some charging products

PowerShuttle

PowerShuttle charges up to **40% faster** than round-robin and other charging systems!

LearnFit® Sit-Stand Desk enhances mobility and ergonomics at work, leading to more productivity and wellbeing. Easy to move from room to room, it adjusts smoothly to your preferred working position with the squeeze of a hand lever.

Arm Mounting Solutions

Ergotron offers a variety of mounting options for MX Mini, LX and HX arms.

Desk Clamp

Desk Clamp: Attaches to the back or the side of the desk and requires no tools for installation. Compatible with a wide variety of desk sizes and shapes. It requires underdesk space.

Grommet Mount

Grommet Mount: Allows arm mounting through the desk surface for a harmonized working surface.

NEW!
C-Clamp Under Mount

C-Clamp Under Mount: Designed for desks with limited space underneath the worksurface; for example, due to cable channels or sliding surfaces.

NEW!
C-Clamp Top Mount

C-Clamp Top Mount: Suitable for desks with very limited space underneath the worksurface. Allows easy access and quick installation.

Mobile computing and video

conferencing: Designed for high activity areas such as manufacturing floors, clinical documentation, labs, distribution centers and conference rooms. Mobile sit-stands transform any space into a healthy and productive computing environment.
